## What did you especially like about the course?

Paolo tried really hard to get the most out of his lectures. He prepared the lecture very well and presented the solutions in a very concise and comprehensible manner. Besides, he offered additional sessions and tried his best to support us mentally. I recommend him and his teaching without any restrictions.

The tutorial was very helpful. Especially useful were the brief recaps of the applied logic in the proof. Furthermore, the tutors commitment to help students to understand the ground covered was exceptional.

Paolo was a good TA. He was able to explain everything very well.

**What could/should be improved?**

There is nothing I could suggest to improve.

Just a minor thing: To save some time, it would be better to not copy the problem set text at the beginning of each answer that is written on the board...
