## 1. Course Evaluation

1.14) What did you especially like about the course?

- Thanks Paolo! The course was really tough but you made it bearable. Paolo was always open for questions and the answers were clear and convincing. He was reachable at any point in time and what I personally find very important in such a difficult course is that the tutor always encouraged us to keep on working and not to give up! Thanks!
- The availability of the instructor. He dedicated the students extra time during the week in order to improve their understanding of the topics seen in class.
- Tutor was very endeavored to communicate the material clearly and understandably. He paid attention that everyone was still able to follow, even with the difficult questions. His teaching style helped to better understand the concepts covered in the lecture. Overall, especially given the high degree of complexity regarding the exercises, a very good tutor.
- You did excellent TA sessions. Thanks!

1.15) What could/should be improved?

- Covering the material within 90 minutes is impossible. Thus, please reduce the number of exercises. This would also allow more discussion in class. And isn't that the sense of an exercise?!
- The exercises covered a lot of new material instead of practicing the material covered in the lecture. Some revisions or exercises on the material covered in the lecture instead of proving new things all of the time might be more helpful to understand what is going on in the lecture
